ABOUT

Systems designer focused on gameplay mechanics, systemic interactions, and satisfying character controllers.

SKILLS

- Game Design (Systems Design, 3Cs, HCI, Combat Design)
- Programming (Python, Lua, C#, Blueprints)
- Game Engines (Unity, Unreal Engine, Godot)
- Version Control (Git, Perforce)
- Project Management (Agile, Scrum, Jira, Miro)
- Languages (Polish Native, English IELTS 8.0)
- Adaptability, Problem Solving, Curiosity

PROJECTS

Balkanica - Mod Lead Developer

EU4 Modathon Entry | 2025

- Designed and scripted missions and events for nations in the Balkans.
- Conducted historical research to accurately portray the Bosnian church and the situation between the counts of Celje and dukes of Austria.
- Implemented mechanics using Paradox's Clausewitz scripting engine.
- Awarded 2nd place in Regional Flavor category.

Voita - Lead/Systems Designer

Futuregames Warsaw Game Project | 2026

- Created a mobile stealth tactics horror game where you play as the monster, interacting with the environment to trap the crew of a space station.
- Led systems design on a multidisciplinary team of designers, artists, programmers, musicians, and a producer.
- Implemented gameplay features and mechanics directly, supporting programmers by scripting and prototyping systems.

Wastemancer - Systems Designer

Futuregames Warsaw Game Project | 2025

- Designed core systems for an arcade game inspired by spellcasting in Magicka and UFO 50's Valbrace.
- Conducted playtesting with prototypes to ensure satisfying gameplay.
- Assisted in Sound Design providing each spell and enemy with distinct sounds that keep the player informed about the state of the game.

VOLUNTEER EXPERIENCE

Project Maintainer

Space Station 13 (TG fork) (2022 onwards)

- Maintains one of the largest open source video game repositories on GitHub.
- Helps lead the design vision of the project.
- Reviews pull requests for code quality and gameplay design.
- Helps newer coders get their passion projects off the ground.

Head Administrator

Space Station 13 (TG server) (2023-2024)

- Worked with two other elected head admins in a high stress environment
- Led a team of over 100 administrators of an online game with policy, rulings, guiding, and emotional support.
- Kept rounds of the game enjoyable for the players, providing answers to any questions, handling malicious actors, being the Dungeon Master and helping work out any issues that happen.

Localization Community Tester

The Rise of the Golden Idol + The Sins of New Wells DLC (2024-2025)

- Tested a dozen hour detective game based around word placement.
- Compared its Polish and English translations, seeing if things were deducible in both versions, submitting bug reports when they weren't.

EDUCATION

Futuregames Warsaw (2025 onwards)
Game Designer Program
Breda University of Applied Sciences (2024-2025)
Design & Production student at Creative Media and Game Technologies
Nicolaus Copernicus Secondary School in Grajewo (Finished 2023)
High school diploma with a Maths and Physics Faculty
